Basic Concepts of Cards

SRU

SRU-100H (SRU-100H,service and router unit 100H, 11*GE (10*GE combo, 1*GE copper), 2*10GE SFP+, 1*USB)

SRU-100HH (02312XRX: SRU-100HH,Service and Router Unit 100HH, 14*10GE(SFP+), 8*GE Copper, 1*USB2.0)

SRU-100HH (02312XRX-001: Service and Router Unit 100HH, 14*10GE(SFP+), 8*GE Copper, 1*USB2.0)

SRU-200H (SRU-200H,service and router unit 200H, 11*GE (10*GE combo, 1*GE copper), 2*10GE SFP+, 1*USB, 2*DSP slot)

SRU-400H (02312NEU: SRU-400H, Service and Router Unit 400H, 14*10GE(SFP+), 10*GE Copper, 1*USB2.0)

SRU-400H (02312NEU-001: Service and Router Unit 400H, 14*10GE(SFP+), 10*GE Copper, 1*USB2.0)

SRU-400HK (02312XRW: SRU-400HK, Service and Router Unit 400HK, 14*10GE(SFP+), 10*GE Copper, 1*USB2.0)

SRU-400HK (02312XRW-001: Service and Router Unit 400HK, 14*10GE(SFP+), 10*GE Copper, 1*USB2.0)

SRU-600H (02312NEV: SRU-600H, Service and Router Unit 600H, 14*10GE(SFP+), 10*GE Copper, 1*USB2.0)

SRU-600H (02312NEV-001: Service and Router Unit 600H, 14*10GE(SFP+), 10*GE Copper, 1*USB2.0)

SRU-400H (02312NEU: SRU-400H, Service and Router Unit 400H, 14*10GE(SFP+), 10*GE Copper, 1*USB2.0)

Overview

Table 6-30 Basic information about the SRU-400H

| Item | Details |
|-------------|---|
| Description | SRU-400H, Service and Router Unit 400H, 14*10GE(SFP+), 10*GE Copper, 1*USB2.0 |
| Part Number | 02312NEU |
| Model | SRU-400H |
| Silkscreen | SRU-400H |

Appearance

Figure 6-15 Appearance of the SRU-400H

Version Mapping

Table 6-31 Mappings between SRU-400H and product models

| Product | Product Model | First Supported Version | Last Supported Version | Unsupported Version | Limitations |
|---------|-------------------------|-------------------------|------------------------|---------------------|-------------|
| AR6200 | AR6280 (02115641) | V300R019C00 | - | - | - |
| AR6300 | AR6300 (02115640) | V300R019C00 | - | - | - |
| AR6300 | AR6300-S (02352VEL) | V300R019C00 | - | - | - |
| AR6300 | AR6300-S (02352VEL-001) | V300R022C00 | - | - | - |

Indicators and Buttons

Table 6-32 Indicators on the SRU-400H

| Silkscreen | Name | Color | Status | Description |
|------------|---|--------------|---------------|---|
| SYS | SYS indicator | Green | Slow blinking | The system is running properly. |
| | | Green | Fast blinking | The system is being powered on or restarting. |
| | | Red | Steady on | A fault that affects services has occurred and cannot be rectified automatically. The fault needs to be rectified manually. |
| | | - | Off | The system software is not running or is resetting. |
| ACT | ACT (active/standby status indicator) indicator | Green | Steady on | The SRU is in active state. |
| | | - | Off | The SRU is in standby state. |
| INET | INET indicator | Green | Steady on | The network service has been established. |
| | | - | Off | The network service is unavailable. |
| CTRL | CTRL indicator | Green | Steady on | The device has been managed by the controller. |
| | | Green | Blinking | The plug-and-play deployment is ongoing by the registration query center. |
| CTRL | CTRL indicator | - | Off | The device has not been managed by the controller. |
| - | 10GE optical interface indicators | Green (Link) | Steady on | A link has been established on the interface. |
| | | Green (Link) | Off | No link is established. |
| | | Yellow (ACT) | Blinking | Data is being transmitted or received on the interface. |
| | | Yellow (ACT) | Off | No data is being transmitted or |

Table 6-33 Buttons on the SRU-400H

| Silkscreen | Name | Description |
|------------|--------------|--|
| RESET | RESET button | <p>This button is used to reset the router.</p> <ul style="list-style-type: none"> In an empty configuration scenario, ensure that the router has no console port input, and has no user login routers. If the Reset button is pressed and held for at least 5 seconds, you will access the registration query center of Huawei devices and obtain the cloud management platform address of routers for plug-and-play deployment. In the configured scenario, hold down the button for at least 5 seconds to restore the factory settings. To reset the router, hold down the button for less than 5 seconds. <p>Resetting the router will interrupt services. Exercise caution when deciding to press this button.</p> |

| | | |
|--|--|-----------------------------|
| <p>1. One MEth interface</p> <hr/> <p>NOTE:</p> <p>MEth interface is the management network port on a device. It can implement web-based network management and email-based deployment.</p> | <p>2. WAN interfaces: fourteen 10GE optical interfaces</p> <hr/> <p>NOTE:</p> <p>GE optical modules can be inserted into these fourteen optical interfaces.</p> <p>All 10GE WAN interfaces can be configured as LAN interfaces.</p> | <p>3. USB 2.0 interface</p> |
| <p>4. WAN interfaces: ten GE electrical interfaces</p> <hr/> <p>NOTE:</p> <p>All GE WAN interfaces can be configured as LAN interfaces.</p> | <p>5. Console interface</p> | <p>-</p> |

Table 6-34 Ports on the SRU-400H

| Port | Connector Type | Description | Available Components |
|-------------------------|----------------|---|----------------------------------|
| Console interface | RJ45 | The console interface of a router can connect to an operation terminal for onsite configuration. <ul style="list-style-type: none"> Standards compliance: RS232 Working mode: Full-duplex Universal Asynchronous Receiver/Transmitter (UART) Data equipment type: Data Circuit-terminating Equipment (DCE) | Console cable |
| USB 2.0 interface | USB 2.0 Type A | A USB interface provides up to 480 Mbit/s upload and download rates. <ul style="list-style-type: none"> Standards compliance: USB2.0 Working mode: Host | USB 2.0 standard USB flash drive |
| GE electrical interface | RJ45 | A GE electrical interface (10/100/1000 Mbit/s auto-sensing) transmits and receives services at 10 Mbit/s, 100 Mbit/s, or 1000 Mbit/s. <ul style="list-style-type: none"> Standards compliance: IEEE802.3, IEEE802.3u, IEEE802.3ab Working mode: Full-duplex (10/100/1000 Mbit/s auto-sensing) Maximum transmission distance: 100 m | Ethernet cable |
| 10GE optical interface | LC/PC | The 10GE optical interfaces (1/10 Gbit/s | Optical module The following |

Previous

Next

10GE modules can transmit and receive service traffic at 1 Gbit/s or 10 Gbit/s.

- Optical interface attributes: The optical interface attributes vary depending on the optical module used.

- Standards compliance: IEEE 802.3ae

Supported:

- GE eSFP Optical Modules
- 10GE SFP+ Optical Modules

Functions and Features

Table 6-35 Functions and features of the SRU-400H

| Functions and Features | Description |
|------------------------|---|
| Overview | <p>A Service and Router Unit (SRU) integrates the control and management functions and provides the control plane, management plane, and switching plane for the system.</p> <ul style="list-style-type: none"> Control plane: provides functions such as protocol processing, service processing, route calculation, forwarding control, service scheduling, traffic statistics collection, and system security. Management plane: provides functions such as system monitoring, environment monitoring, log and alarm processing, system software loading, and system upgrade. Switching plane: provides high-speed, non-blocking data channels for service switching between service modules. |
| Basic function | Stores system configuration data, startup files, upgrade software, and system running logs. |
| Voice function | Not supported |
| Control module | Provides the control plane and management plane to implement functions such as protocol processing, route calculation, forwarding control, system management, and system security. |
| Switching module | Acts as the service switching plane and provides high-speed channels for service switching functions. |
| Power module | Provides power for other modules of the SRU. |
| Clock module | Not supported |

Technical Specifications

Table 6-36 Technical specifications of the SRU-400H

| Item | Specification |
|--|--|
| Card type | EXSIC |
| Dimensions without packaging (H x W x D) [mm(in.)] | 40.14 mm x 402.8 mm x 270.85 mm (1.58 in. x 15.86 in. x 10.66 in.) |
| Weight without packaging [kg(lb)] | 3.3 kg (7.27 lb) |
| Typical power consumption [W] | 73.6 W |
| Maximum power consumption [W] | 92 W |
| Long-term operating temperature [°C(°F)] | 0°C to 45°C (32°F to 113°F) |
| Long-term operating relative humidity [RH] | 5% to 95%, noncondensing |
| CPU | 16-core, 2.26 GHz |
| Memory | 8 GB |
| NAND Flash | 2 GB |

[Previous](#)
[Next](#)

| | Comments |
|-------------------------|---------------|
| Hard disk | Not supported |
| DSP slot | Not supported |
| Console management port | RJ45 |
| Hot swapping | Supported |
